

OFFICE OF THE COUNTY EXECUTIVE  
ROCKVILLE, MARYLAND 20850

Isiah Leggett  
County Executive

MEMORANDUM

January 7, 2010

TO: Nancy Floreen, President, County Council

FROM: Isiah Leggett, County Executive

SUBJECT: FY10 Revised Savings Plan

Attached please find my Recommended FY10 Revised Savings Plan that identifies additional savings for the current year of over \$70 million. These savings are necessary to respond to the significantly worsened economic and fiscal conditions that we are faced with. Combined with the Savings Plan I transmitted to you last October 28, 2009, this represents a total reduction in the current fiscal year of approximately \$100 million. In developing this Savings Plan, our objectives were to identify real cost reduction opportunities that are continuing in nature, while prioritizing and preserving, to the extent possible, direct services and minimizing any reductions in force. However, given the magnitude and long-term nature of our fiscal challenge, it is necessary to make several reductions in existing services, including abolishing 70 County positions. We estimate that currently 44 of these positions slated for abolishment are filled and will require a Reduction in Force. We will make every effort to appropriately place the affected individuals into vacant positions.

The Revised Savings Plan includes several elements that are different from prior efforts. In addition to operating budget expenditure reductions, I am also recommending reductions in Capital Improvement Program (CIP) current revenue, liquidation of prior year contractual encumbrances, and a fund balance transfer.

Working together over the past three years we have been successful in closing gaps of nearly \$1.2 billion and bringing the total tax supported rate of growth down from 9.8% in FY07 to 1.6% in FY10, and the County Government rate of growth from 14.1% in FY07 to -2.2% in FY10. The rate of growth for FY10 will actually be much less after accounting for the impact of both rounds of the FY10 Savings Plan.

It is important to understand that, as I have stated previously many times, I will not recommend exceeding the Charter limit on property taxes in the FY11 Operating Budget. The County's taxpayers continue to face their own unprecedented fiscal challenges.

As indicated to the Council previously, this Savings Plan is necessary not only to conserve resources to apply to closing the projected FY11 budgetary gap of \$608 million, but also to maintaining a positive balance in the County's general fund for the current fiscal year. The FY10 revenue losses in income tax, transfer and recordation tax, investment income, and other receipts primarily

impacted the general fund. As a result, even after the first round Savings Plan, and absent actions to address these losses, the general fund would end the year with a deficit of nearly over \$64 million. Clearly, we can not allow this to happen. The County budget and finance staff will be working over the next two months to identify other actions necessary, in addition to the revised Savings Plan, to strengthen the condition of the general fund. We will work with the County Council and your staff on these other actions and a comprehensive description will be available in my Recommended FY11 Operating Budget.

While my funding priorities continue to be focused on education, public safety, and safety net services, it is not possible to provide a balanced budget without including significant reductions to programs within these priority areas. As the table below indicates, nearly 80% of our tax supported funding (\$3.1 billion) is already dedicated to these priorities. In the absence of a major tax increase, it is not possible to close a looming \$608 million budgetary gap in FY11 by making reductions to only 20% of the budget.

If the Council does not support the attached proposed reductions, I strongly recommend that it propose offsetting reductions in other areas of the budget to maintain the total amount of savings. These savings must be available to close the projected FY11 budget gap. We are only in the first step of the process in resolving the FY11 budgetary gap. Many more difficult choices remain ahead in confronting these challenges. Deferring needed savings at this time will only temporarily postpone the urgent need to make difficult choices and indeed make future choices all the more difficult. The less time in which agencies have to make the necessary reductions, the deeper and more difficult those reductions will be in order to achieve the same savings. Resolution of the FY 11 budget gap is problematic because even more difficult and complex issues will need to be addressed during the Council's short time for reviewing and approving the annual budget.

Because of the weakness in the current local and national economy and the State's continuing fiscal challenges, I urge the Council to quickly approve the reductions proposed in the attached Savings Plan. The projected gap for FY11 may significantly worsen in the near future because of continued revenue deterioration, cost increases related to snow removal, and the very real potential for further substantive reductions in State aid. We have already absorbed cuts of nearly \$20 million in State aid in this fiscal year and I believe the Governor's soon to be released budget will contain further Local aid reductions.

The attached plan includes proposed targets for Montgomery County Public Schools (MCPS), the Maryland-National Capital Park and Planning Commission (M-NCPPC), the Housing Opportunities Commission (HOC), and Montgomery College (the College). The principals of these agencies have expressed their willingness to cooperate in resolving our shared fiscal challenges.

I strongly urge the Council to expedite its review and approval of the attached Savings Plan, so that the necessary actions can be implemented as soon as possible. My staff is available to assist the Council in its review of the attached proposal. Thank you for your support of our efforts to preserve our most important services, while protecting the fiscal health of the County Government.

S1	<b>DECREASE COST: FREEZE VACANT DATA PREPARATION OPERATOR POSITION FOR REMAINDER OF FISCAL YEAR</b>	-19,860	0
	Not filling this position will necessitate duties being distributed among other staff members and could impact services provided to the public.		
S2	<b>DECREASE COST: FREEZE TWO VACANT COURT EVALUATOR POSITIONS FOR REMAINDER OF FISCAL YEAR</b>	-83,730	0

In response to the County's directive to reduce the Circuit Court's FY10 budget, the least harmful option is to freeze vacant positions. However, the inability to fund two part-time Court Evaluator positions at the Montgomery County Circuit Court will have a detrimental impact on the Court's capacity to efficiently process family cases in general and to obtain the best resolutions in child custody and access cases in particular. The Court is also concerned about how an insufficient cadre of Court Evaluators will impact the Court's mission of delivering justice in a fair, honest, and efficient manner.

With a reduced cadre of evaluators, the Court will be required to significantly trim the evaluative functions it performs. In addition to workload, insufficiently staffing the assessment/evaluation function of the Court will likely negatively impact other core functions.

Case management, which focuses on the efficient processing of the Court's caseload, is one of the Court's core functions. With fewer evaluators available, the timeliness with which these cases are processed will likely be impacted. One measure to assess how efficiently a court is processing its caseload is the clearance rate. At a minimum, courts should strive to dispose of as many cases as have been filed/reopened/reactivated in a period by having a clearance rate of 100%. The FY09 overall combined clearance rate for original and reopened cases for the Montgomery County Circuit Court is 93%. The clearance rate for original cases is 89% while that for reopened cases is 99%. For the past eight fiscal years, the Court has been able to maintain a clearance rate of close to 100% for family cases. However, with an increasing family caseload (as measured by filings), it will become increasingly difficult to sustain the current clearance rate without the requisite staff.

As another way to assess a court's case processing efficiency, in 2001 the Maryland Judiciary developed case processing performance time standards for various types of circuit court cases, including family cases. In particular, the Maryland Judiciary recommended that 90% of family cases close within 12-months of filing and 98% of family cases close within 24-months of filing. For the past four fiscal years, the Montgomery County Circuit Court has been able to meet these time standards. However, as the Court's family case filings continue to increase without sufficient funds to support evaluator positions, it may become challenging for the Court to continue to be recognized as a leader in case processing efficiency. Evaluators play a critical role in the timely resolution of family cases in a manner which ensures that the child's best interest is protected. Every Court Evaluator position is vital to the efficient and effective management of the Court.

The Court Evaluators also support and work closely with the child custody/access mediators. The Court's custody and access mediation function is an integral part of ensuring the efficient management of family cases. While the outcomes for mediated cases have remained consistent over the past two years, the Court is aware of the fact that not funding evaluator positions may have unintended consequences on other core functions of the Court such as custody/access mediation.

The Court is also very aware of the possible consequences of not having the appropriate level of staff to support this core function of the Court. For example, the Court expects that the processing of family cases requiring evaluators' assessments or evaluations will inevitably take much more time than cases without such reports, which will cause additional stress on the parties involved. The Court is concerned that delayed justice in these cases may result in increased domestic disputes.

<b>Circuit Court</b>			
Funding the requested Court Evaluator positions is crucial to core functions of the Montgomery County Circuit Court. Without a sufficient number of evaluators, not only will more cases be at risk for languishing in the system - which is expensive, often counterproductive, and damaging to the children and families involved - but in addition some cases may not receive the benefits of the Court's co-parenting program, or the evaluators' assessments and evaluations. To serve the best interests of County residents and, in particular, children involved in custody and access cases, the Montgomery County Circuit Court earnestly requests that the Montgomery County Government reinstate funding for these positions at the earliest possible time.

<b>Commission for Women</b>			
<b>S1</b>	<b>ELIMINATE: OFFICE SERVICES COORDINATOR</b>	<b>-18,000</b>	<b>0</b>
It will be difficult to have consistent staffing of the Counseling and Career Center's front desk without this position. Workload of this position will have to be absorbed among the remaining staff of the department. Staff will require training to assume many of these duties. Efforts will also be made to recruit volunteers to assist with the creation and distribution of outreach materials for the Counseling and Career Center.			
<b>S2</b>	<b>ELIMINATE: SUPERVISORY THERAPIST POSITION</b>	<b>-17,120</b>	<b>0</b>
The Department will eliminate the supervisory therapist position in the Counseling and Career Center. This reduction poses serious challenges to the oversight and operations of the Counseling and Career Center (CCC).			
Providing professional counseling services for individuals and couples experiencing difficult transitions involving personal and/or career issues is a major program of the Commission for Women's Counseling and Career Center (CCC). Eliminating this position will require a restructuring of the Counseling and Career Center. At present, counseling is provided by four staff counselors, each part-time, working 22 hours per week, and six to seven interns who work an average of 20 hours per week during the academic year.			
This incumbent recruits, trains and supervises all staff counselors and counseling interns, organizes and manages the professional training seminars attended by over 350 professional each year, handles crisis intervention, provides counseling, and is back-up management for the CCC. The majority of the coverage and supervision will be shifted to the Manager and remaining staff of the CCC. We will make every effort to minimize the impact on capacity through careful scheduling.			
Because the administration, commission support, and direct service staff are at maximum capacity now, to avoid a decrease in service levels and revenues, eliminating these two positions will require the CCC to adjust its hours of operation. The Commission for Women itself, of necessity, will eliminate some committees and projects as its staff will have to assume responsibilities in the operations of the CCC.

	Per contract, the County pays a \$16.25 fee to the Safe Speed vendor for each \$40.00 citation that is paid by speed violators. Based on the latest projections from the MCP Automated Traffic Enforcement Unit (ATEU), the number of citations paid for FY10 will be approximately 370,000, which is substantially less than the amount originally projected. This reduction is attributable to changes in State law effective October 1, 2009, which directly affects the Safe Speed Program, as well as changes in driver behavior to reduce traffic speeds. Based on this projection, the MCP can save \$4,671,740 as the payments to the Safe Speed vendor will be reduced due to 287,492 less paid violations projected for FY10.

Collectively the total reduction to the library materials budget since July 1st would be \$2.05m, or 37.2%, leaving an effective base budget of \$3.46 million for FY10. All materials purchasing areas will be affected. Very substantial reductions or eliminations will also be made in magazine/newspapers, music, print reference materials, and databases. Merit branch staffing has been reduced already by 11% from FY09 levels, with no decrease in service hours, and increasing use (8% so far in FY10) by customers. The inability to book substitute staff to cover for merit staff who go on annual or sick leave will reduce information services. This magnitude of reduction will force the department to sporadically close information desks down due to lack of staffing and an inability to cover the resulting gap. To compensate for the proposed position decrease, existing managerial staff will assume the duties of contractual and budgetary management. This will enable the workload to be managed in an effective and timely manner.		
S4	<b>REDUCE: REDUCTION IN VOICE MAIL REPLACEMENT</b>	<b>-50,720</b>	<b>0</b>
	There are several sites that will not be connected to the new voice mail system during the first phase of the upgrade process, and support of these systems will still be required. Additionally, there are several scripts that reside on the OCTEL platform that is associated with various County call centers. These call centers will be migrated into the County-wide 311 center. The scripts will need support until they are transposed to the new voice mail system.		
	In an effort to mitigate the precarious state of the OCTEL platform, DTS will advise 311 Contact Center management on developing a strategy to accelerate the phase process for transposing existing contact center scripts. The risk of not having these funds will impair our ability to support the old OCTEL voice mail system, which will be de-commissioned on a phased approach until such time that these sites are ready to be connected to the new platform, support for those system will still be required. As a result, unplanned outages may occur and may take longer to restore services.

	As part of the IJIS Program, resources were identified to provide application configuration support to the various IJIS COTS solutions to fit the applications to the business processes as necessary. For the initial phases of the SAO and CRIMS projects, the majority of the configuration changes have been handled by the COTS vendor or as development work by the IJIS team. As a result, less application configuration work has been identified by the IJIS team and those resources have been utilized to focus on the increased interface work. The reduction of the Application Configuration Support for FY10 will have minimal service impact, but the need will increase in Phase 2 and beyond for the SAO and CRIMS projects schedule for FY11.		
S10	<b>DECREASE COST: BACKUP TAPE RETENTION</b>	<b>-16,500</b>	<b>0</b>
	Currently, backup tapes are created nightly and kept for 4 weeks; and one set of weekend tapes per month are kept for one year. Reducing the retention time of nightly tapes to 3 weeks will reduce the number of tapes needed/replaced by almost 25%. Longer term backups will still be available from monthly tapes. The reduction in backup tape retention reduces how far back in time a backup from a specific day could be restored. The number of requests for tape restores beyond 3 weeks for a specific day has historically been very low, therefore the risk is deemed to be manageable.

S13	<b>REDUCE: REDUCED TRAFFIC SIGN AND MARKING MATERIALS</b>	-100,000	0
	This action would reduce the funds available for materials and supplies for the roadway marking, signing and traffic signal maintenance programs by approximately 10%. The impact will be primarily aesthetic as faded crosswalks, bent No Parking signs, etc, will be not be replaced. Missing signal pole caps will not be replaced resulting in potential water damage over time. Funds still remain to replace critical items such as knockdowns.		
S14	<b>REDUCE: REDUCTION IN RESURFACING/PATCHING EFFORT</b>	-437,060	0
	Purchase orders for resurfacing in the amount of \$437,060 for work scheduled in the spring will be liquidated. Approximately 4 lane miles of planned roadway repairs will not be accomplished. Delaying the resurfacing and patching of these roadways will cause further long term structural failure to the aging roadway infrastructure requiring more costly rehabilitation/reconstruction efforts in the future.		
S15	<b>REDUCE: DELAY CONVERSION OF PEDESTRIAN SIGNAL TIMING DEVICES TO NEW STANDARD</b>	-50,000	0

	The Pedestrian Safety Initiative relies on the three E's to reduce the number of pedestrian collisions in the County: Engineering, Enforcement, and Education. The FY 10 pedestrian safety budget increased spending for education to \$150,000. This education effort was intended to change both motorist and pedestrian behavior leading to a reduction in the number of pedestrian collisions. It was programmed to be spent on: \$100,000 Contract: Firm specializing in educational outreach and behavior modification techniques; \$50,000 Contract Employee: Employee based in DOT would manage above contract and implement other education activities. Failure to implement a comprehensive and sustained education program would lessen the impact of the other engineering and enforcement investments the County is making to improve pedestrian safety in the county.

	The Department manages a significant number of CIP project efforts including Community Recreation Centers, Aquatic Centers, Pools, and major renovation/replacement of facilities. Approximately one half of one eligible employee's time is dedicated to these functions exclusively. The amount shown represents the estimated hours (1040) of this dedicated work to be charged to the appropriate individual projects. It is estimated that the impact to any one individual project will not affect planning, design, construction, or equipping the various facilities.		
S4	<b>REDUCE: SEASONAL STAFF</b>	-66,620	0
	Reduced staffing at various events will make it difficult for the department to adjust to changing circumstances.		
S5	<b>REDUCE: PLANNED LIFECYCLE ASSET REPLACEMENT (PLAR)</b>	-250,000	0
	Less maintenance will be performed and equipment lives will be extended on such items like tables, chairs, basketball rims, volleyball standards that need replacement on a periodic basis.		
S6	<b>ELIMINATE: SENECA VALLEY SPORTS ACADEMY</b>	-96,950	0
	The impact of not having this program is that approximately 80 high school youth would not have this activity to attend after school.		
	Participants may derive personal enjoyment and satisfaction from these activities which encourage creative expression, skill development, and cultural awareness. Recreation staff provides positive role models and promotes group involvement, self direction, and fun. The recreation activities are offered as an incentive for teens to study and attend the academic support programs.		
	By eliminating this program, teens would have access to academic support provided by the school two days per week; the recreational activities would be eliminated, thereby eliminating an incentive to attend the academic support sessions. Teens would not have the safe, supervised, planned activities to attend after school.		
S7	<b>DECREASE COST: SUPPORT TO THE MARYLAND SENIOR OLYMPICS</b>	-48,080	0
	This reduction (\$48,080 of \$50,000) eliminates the Department's materials support. There is some private support, but it is unlikely to be able to cover this decrease. As this is a non-qualifying year there are fewer participants and somewhat lesser resources will be needed, but this will still have some impact. Recreation will continue to supply approximately \$15,000 of (un-budgeted) staff support to the event. Private support for the Maryland Senior Olympics is approximately \$12,000.

S1	<b>DECREASE COST: OTHER PROFESSIONAL SERVICES</b>	-10,000	0
	A reduction of \$10,000 from Other Professional Services (2598) eliminates the ability of the Regional Services Center to fund financial and management audits of the activities of the Bethesda Urban Partnership under the terms of the annual agreement. These funds were used in FY09 to fund a Department of Finance review of the Optional Method billing process. In FY10, planned expenditures included an assessment of replacement vehicles for the Bethesda Circulator.		
S2	<b>DECREASE COST: MISCELLANEOUS OPERATING EXPENDITURES</b>	-4,600	0
	Reduces the ability of the Bethesda Urban District to fund operating expenses, special programs, and projects. Anticipated uses of this funding in FY10 included improved participation in Greater BCC Chamber of Commerce events, improved signage for the RSC, Positive Youth Development activities, and a joint project with Bethesda Green to conduct outreach to small businesses.		
S3	<b>DECREASE COST: STREETScape MAINTENANCE</b>	-2,000	0
	A reduction in Streetscape Maintenance would result in longer delays in repairing and replacement of streetlights in the Bethesda Urban District. Timely streetlight replacement has been a top priority of the local business and residential communities		
S4	<b>DECREASE COST: BETHESDA URBAN PARTNERSHIP CONTRACT</b>	-84,810	0
	A reduction in the Bethesda Urban District contract would result in the elimination of planned promotional events and maintenance activities. Such a reduction may not be possible given the terms of the annual agreement with the Bethesda Urban Partnership (BUP), which authorizes the annual payment to BUP for their activities. A mutual agreement with BUP would need to be reached to amend the agreement.

The analog equipment is very old, and in many cases, is no longer supported by the manufacturer and/or replacement parts are not available. If a vital piece of equipment necessary to continue operation of the station were to suddenly become inoperable, funding to immediately replace that item would be available through the PEG Equipment Emergency Reserve.

	CUPF, under the authority of the Interagency Coordinating Board (ICB), reimburses MCPS for costs incurred in facilitating community use as required by Section 44-5A(b)(1) of the County Code.		
	All weekend use of schools requires scheduling of at least one MCPS Building Services Worker at each school in use. Consolidation of groups, reducing the number of schools opened simultaneously, will reduce weekend staff reimbursement costs. As feasible, CUPF will restrict opening a school for use of only one room, and place groups in schools already open.
